Sir:

RESPONSE "D"

The present amendment responds to the Final Office Action mailed March 3, 2006 and the Advisory Action mailed on May 15, 2005 in which the Examiner indicated that the obviousness-type double patenting had been overcome and found the copy of the claims in the amendment to be inconsistent with the claims as last presented. Claims 1-10 and 12-20 are currently pending in the present application and Applicants have amended claim 13. Applicants have corrected the listing of the claims in this response. Applicants believe that this Final Office Action Response has added no new matter and places the application in condition for allowance.
